

Ohaus Adventurer Pro Analytical Balance

Specifications:

Capacity	110 g
Readability	0.1 mg
Repeatability (Std. Dev.)	0.1 mg
Linearity	±0.2 mg
Weighing units	Milligram, gram, kilogram, pound, ounce, user programmable custom unit, carat, troy ounce, pennyweight, grain, Newton, Hong Kong tael, Singapore tael, Taiwan tael, momme, tical, baht, mesghal, tola
Application Modes	Basic Weighing, Dynamic Weighing, Parts Counting with Automatic Sample Recalibration, Percent Weighing, Check Weighing, Totalization, Display Hold
Tare range	To capacity by subtraction
Stabilization time (seconds)	3
Operating Temperature Range	10° to 30° C
Power Requirements	AC Adapter
Calibration	Digital external with weight
Pan diameter (cm)	10
Comments	Draft shield protects balance from fluctuations from wind currents

Manufacturer's Description:

- large stainless steel weighing platform
- mechanical and software overload/underload protection
- weigh below hook
- standard protective in-use cover
