

Northern Images Mission

Artwork Collection Form

If printed to letter paper, the boxes below will be the same size as the screen on the satellite. The screen is 160 pixels wide, and 128 pixels tall.

Create your artwork in the box below! Keep in mind that this block will be shrunk down to the same size as block above so that it will fit on the satellite. Fine detail might get lost when the image is converted, so make sure to be bold! Markers will be better than pencil crayons, but both will work.

Please scan this page and send it along with the rest of your Northern Images Mission Packages.
